Abstract

Portal for food delivery, Food catering and Bulk order of food for parties and similar purposes. This will include everything related to food ordering website as well as food catering and bulk order for parties wherein the consumers will be able to access all the listed services as well as leave behind a feedback and also contact the developers for any technical issue.

Introduction

This website is named as “My Online Meal” wherein we have a modern looking navigation bar containing the business logo, ‘Home’ tab, ‘Services’ tab, ‘Our Clients’ tab and a ‘Contact Us’ tab. By accessing these tabs, we can access each section of this static website and can know about everything.

In Home section, there is an attractive home page is designed for the consumer attraction. Then in Services section, there is a detailed information about what our website provides to our customers. In Our Clients section, we have mentioned some of the prestigious clients who are our consumers from the long period of time. Finally, in Contact Us section, we try to take any suggestion as well as complaints, if any, from the services we provide.

Technologies Used

There are numerous web development tools present in today’s world, but this static website is designed using:

1. HTML- For the structure and information present on the site.
2. CSS- For all the designing and looks of the site.

Sample Code

Coding is done using VS Code

HTML code:

```
1  |!DOCTYPE html|
2  <html lang="en">
